## TRICOLONIZATION APP FOR THE ANDROID

The Tricolonization App for the Android Smart Phones is one of the features on the Plizzel web site but is separated as an app for the Android Smart Phones. You want a “WOW”! I’ll give you a “WOW”!

The Tricolonization solution to evolution is going all elitist’s sacred cows at once. First is the myth that we have a population growth problem. Second that we have only limited resources and we must distribute these resources equally. Third that we are ruining the environment and we must stop development to save the planet. All this is just plain stupid and is being shown up for what it really is; a grab for power over the individual to the benefit of a stupid elitist group of people. Hence, a new political and practical paradigm will become the norm. It’s no longer a “Flat Earth” myth. The World needs to be filled with “type 1 humans” as quickly as possible.

Tricolonization is about solutions, not grabbing power. How can this situation possibly be put on an Android App using PayPal technology?

The Plizzel Professional MLM (Matrix) is a non-abusive use of standard MLM matrices for training and business networking instead of trying to make money with the usual MLM marketing scenario. Any participant must qualify before they are allowed into the Matrix.

Some of the potential MLMatrix participants are as follows:

- Bacterial Programming
- TLC Loans
- Endangered Species Genome Development
- Exchangors Certification
- Tricolonization Food Techniques
- Chimeric Creatures - Genetic Designers
- Genetic Engineers
- Miniature Thorium and Cold Fusion Reactors
- Tricolonization Communications
- Any approved category

Some of the advantages of using a MLMatrix are as follows:

- Matrix is perfect partnership - no work for attorneys
- Matrix is a great training tool
- Matrix is a professional networking system for both research sharing and business deals between the participants
- Matrix profits used for monitoring purposes to insure the perpetuation of system and non profit activities

A button, not unlike the PayPal button will be developed so other web sites can encourage the use of this app as a separate part of their designed use like plizzel.com and humanarium.org do now.

PayPay technology used for this application include:

- We are using the Subscription Button.
- We are using the Adaptive Payment method of processing all funds.
